

Senior Structural Engineer

Location: Inverness

This is a rare opportunity to join a team of highly skilled and experienced professionals in a privately owned consultancy based in the Highlands.

HGA have been operating for over 20 years with a wide range of projects throughout a variety of sectors in the Highlands and Islands.

We are committed to supporting our employees in progressing their careers and are seeking a motivated individual to develop into a key part of the management team.

Competitive salary offered to the right candidate depending on experience and chartership status.

Requirements

- Degree in Civil/Structural Engineering;
- 4+ years of consultancy experience;
- Chartered or working towards chartership with either the ICE or IStructE;
- Experience of structural design in timber, steel, concrete and masonry;
- Experience in the design of foundations;
- Experience in the production and review of construction drawings and specifications;
- Experience of working with AutoCAD;
- Experience in the use of design & analysis software;
- Experience in taking projects from concept to completion;
- Excellent communication skills;
- Comfortable working independently;
- Knowledge of Eurocodes and/or British Standards;

The following would be beneficial but not essential:

- Experience of specifying / carrying out soil investigation;
- Familiar with the SER certification scheme;
- Experience of working with both new and existing buildings;
- Experience of working with Revit;
- Driver's license and own transport.

Responsibilities

As a senior member of the team, the successful candidate will be working with the company directors in the technical and commercial management of projects from concept to completion.

- Undertaking structural design;
- Undertaking or overseeing production of design drawings and documents;
- Interfacing with clients, design teams and contractors;
- Carrying out site surveys of existing buildings;
- Taking a lead role in the delivery of projects.
